Marlo

Specialty Folders, Meeting Supplies & More!

Things Both Seen and Unseen...

Simply put, sometimes it's easier to notice the distant objects than ones that are right in front of us. While company philosophy is constant progress, our 2014 relocation was an invaluable catalyst in several areas:

1. Process Controls - The Unseen

The Marlo name is synonymous with the highest standards. We again are pleased with the ASI 5 Star and PPAI A+ rating, but choose to attain even higher levels. This unseen part of our business means not only that we maintain quality and service, but also continue to be a competitive Made in U.S.A. manufacturer.

2. Stability - The Seen

A major factor in the decision to move our facility was the importance in providing stability for all (We include customers, vendors, our work force, and our many other affiliated associates). Going forward this means we have more ability to withstand events that ultimately result in price changes, with no compromise in our products.

3. The "What Should be Seen"

We consider many causes important to us which is why we continue to support organizations such as: Brendan's Fund Cancer Run-- Cape May NJ, RPMDA Convention—Dallas TX, Chorus America Convention-Washington DC, and more.

We also consider that needs extend beyond borders and proudly support the orphanages in Kenya (Relocation away from Nairobi area) and consider them as our 'extended family'.

Our new community is both beautiful and vibrant but we've discovered that even so there are 'neighbors' in need. Marlo Plastic Products is very proud to announce corporate sponsorship for The Foodbank of Monmouth and Ocean Counties.

Finally, I again thank you for our relationships for another year. I am not only grateful for your support from a business point of view, but also that it allows us the opportunity to provide assistance in many positive ways.

Art Livingston, President
Marlo Plastics

"I just wanted to say thank you to you and your team for hand-holding this project and seeing it through completion. I know General Mills will be very pleased, as are we. Please make sure your supervisor knows how much we appreciate everything."

"Thank you for doing such a great job on the menu covers! They arrived last Wednesday, undamaged, we let them warm to room temperature before inserting the menu pages, and we were able to deliver them to the customer before the dinner service began. My customer loved the way they turned out; they look beautiful--he is very happy with the menu covers."

"Just wanted to let you know my boss' friend received the folders. He loved them! Thank you so much for all your help! You guys have been wonderful. I'll keep you in mind for future projects."

"This e-mail is long overdue. I wanted to thank you for completing these badge holders so efficiently. My customer was thrilled and they were very well received by the general public. You were an absolute pleasure to deal with and I so appreciate your going out of your way to help get this done on time. Thank you and looking forward to doing more business in the future.."

Four Color Process Printing

While we are extremely pleased to be offering this new process, we also wish to advise that for the best print quality it is important to understand that good artwork is necessary.

Poor artwork will result in poor image quality. To insure the best print, artwork should be actual size and minimum 300 DPI (Higher DPI will produce better print).

While Photoshop or Illustrator files are preferable, other high resolution files will also work. As always, our art department always checks and will advise of any issues prior to commencement of any production.

No charge for virtual proofs. Actual proofs may be ordered for an additional charge of \$100.00 Net
